Event Health & Safety Policy Update: Testing Requirement Rescinded

As the Association continues to evaluate the coronavirus (COVID-19) pandemic, as well as federal, state, and local guidelines and recommendations, the Board of Directors has decided it will **no longer require proof of a negative COVID-19 test** to participate in NACA-sponsored events.

To help protect the health and safety of fellow attendees, we strongly encourage participants to take appropriate precautions in advance of their arrival at NACA-sponsored events, such as by testing and being up-to-date with their vaccine(s) and booster(s), but are not required to do so.

During NACA-sponsored events, the Association will continue to ask attendees to self-monitor for COVID-19 signs or symptoms, and those who experience any signs or symptoms will be expected to discontinue their participation immediately and seek appropriate medical attention.

NACA will continue to monitor this evolving situation and reserves the right to change, update, or add to these requirements at any time as it deems prudent to best protect the health and safety of attendees and others.

We look forward to seeing you at a NACA event soon.
